```
1  Transaction Tx;
2  bool done = false;
3  while (!done) {
4      try {
5          Tx.begin();
6
7          /* atomic block */
8
9          done = Tx.commit();
10     }
11     catch (AbortException&) {
12         Tx.abort();
13         done = false;
14     }
15 }
```
